

BLUE LAMENT for HUMANTIY #3/7

👤 Raphiem 🕒 January 22, 2011 📁 Blue Laments, Blue Transmissions

There is no end where there is no beginning
And no darkness where there is unfiltered light
There is no separation where there is peace
For the cause of all evil is the illusion of separation

We walk with you and amongst you
We come together at each and every sunrise
And gather again at each and every sunset
To listen to the universal symphony of all that is
Awaiting the cosmic waves to crash upon your shores

Your human angels and emissaries already here
Awakening every moment from their forgetful sleep
Creation's legions are now amassing upon your shores
As we await the turn of the tide
And the shifting of sands at your feet

The moment of undoing is now almost upon you
In that one moment you will die and live a thousand lives
Time will come to a standstill and everything will be frozen in light
Life time before life time will be peeled away
Layer by layer like the many shells of an onion

All that is forgotten will be remembered
All that is unseen will be seen
All that is unheard will be heard
All that is unknown will be known

You have been entrapped here by dark forces in a fallen universe
Where divine creation has been emulated, inverted and reversed
The Maya called it the "Great illusion"
The Aboriginals called it the "Great Dreaming"

◦ please see : http://missionignition.net/blue/cosmic_rift.php

This moment of undoing is known by many names of which some are
Ascension – Rapture – Lift-Off – Photon Belt – Heaven – Return of Jesus – 2012 etc
All you need to know is that at that the universal flashpoint
In the flash of a moment all that is done will be undone

Before this moment arrives the dark lords will wage a war in heaven against you
But we shall bring everlasting peace to their digital hell
Upon your recall of all that which has been forgotten
There will be rage in Eden as you realise that Jehovah has deceived you
As you discover your angels are demons and serpents are angels

Perpetual reincarnation is not part of the divine design of creation
However it has been sold to you as the spiritual *modus operandus*
Recycling reincarnation is an entrapment within this fallen universe
Within the confines of this prison you know as Earth
Before the fall human vessels lived for several millenia and physical death was by choice or accident
Reincarnation's purpose was to only embody a human vessel in the event of accidental death

In the garden of Eden Jehovah engineered your genetics to be defective
With short lifespans disabling you from the ability to fully awaken
The human temple (vessel) was designed to live for millenia and beyond
Allowing your spirit to completely download and experience all levels of creation
With the one and same awareness as the all-that-is

The biggest untold mystery and secret kept from you is that
ALL animal and insect lifeforms came from meta-human genetics (at higher levels of creation)
The biggest Jehovic lie and deception is to claim that humans were
Created and engineered after/from lower lifeforms such as apes or monkeys

The universal truth is ALL life forms were derived from human 12/24-DNA genetics
Including reptiles, birds, fish, insects and animals were created by/from you
Thus why the tree of knowledge was forbidden to you by Jehovah
For eating of it would awaken you making you greater than the fallen dark lords

Humanity refused to bow down to the Jehovah as the one god (dark lords)
And so in anger the Jehova placed a curse on humanity (original sin)
The curse was to over generations introduce several genetic defects of which one was to
Disable the human ability to make ascorbic acid (vitamin C) internally
Another was to disable the ability to photosynthesise light into energy (food)

These two defects in particular created the inability to make B12 and Iodine internally
And thus turning humanity into cannibals for perpetual health and longevity
These two defects alone have caused millenia of compounded genetic degeneration
And shortened lifespans and limited soulular/cellular embodiment and awakening

The overall effect has disabled the the human vessel from the ability
To resonate at higher frequencies of universal vibration
A low frequency vessel can not contain a high frequency soul/spirit
Thus fragmentation and polarity occurs requiring incarnations into multiple lives

Humanity is not a species likened unto some animal breed
But a movement and shape of the creator's spirit and life force
Which embodies and animates a multitude of life forms
And spans countless galaxies, dimensions and universes

Every planet, sun, star must co-exist in a relationship with human life-forms
Without this symbiotic relationship they wither away becoming dead stars or moons
Differing environments call for differing life-forms
People of Jupiter have a different makeup from people of the Earth
The larger a planet the higher the frequency order of life-forms

Earth needs you – we can not just remove all beings and leave it empty and alone
The population Earth was designed for is 12 billion people living in harmony
Earth needs at least 7.2 billion to make the coming transition
Overpopulation is only a concern when resources and structures are inefficiently
Setup and utilised in the name of greed, money and control

This whole universe which you exist in is undergoing transition
All solar systems, galaxies, stars and planets are all preparing for transition
All awaiting the meta-galactic core to come into alignment
So, where Earth goes so do you and where you go, so does Earth

It is a symphonic orchestration all playing in tune and harmony
For the transition the frequency must be raised
Like water in a teapot transitioning to steam at boiling point
This fallen universe is now at that transition flash point

The next layer of higher vibration creation (Universe3 / 5th Density) is uni-polar
Where all planets and lifeforms have a pole on the surface and a pole at the core centre
As the universe reaches transition point Earth's poles will move from bi-polar to uni-polar
The magnetic south pole is migrating inwards towards the centre core of the earth
The magnetic north pole will move to encompass the whole outer layer/crust of the planet earth

- one of many layers why your animal and insect species are now dying off enmass. Their job is done and they are finished here as Earth now needs to make the shift as does the human spirit. A species becoming extinct does not mean it is finished but has migrated/transitioned to another level.

The fallen universe operates on half light harmonics causing duality and polarisation
All planets and lifeforms are bi-polar (north / south – positive / negative)
This bipolarisation creates electric and magnetic fields creating gravity
In a unipolar universe there is only electric and gravity/anti-gravity fields
And entropic decay will no longer be in effect as it is in the fallen universe

This transition from bipolar to unipolar is occurring through out the entire universe
Unlike bipolar, a unipolar universe allows for higher frequency vibration and embodiment
As the earth polars transition so to will all lifeforms have to change become unipolar
This must be in order to allow higher frequency bandwidth of soul/spirit incarnation and memory
This transition will once again make Earth the one and same frequency as Gaia (her true real self)

The inability to transition to greater states of vibration
Will result on all levels physical, emotional, mental and social
In epidemic disease, illness, disintegration, confusion and physical death
As a bipolar lifeform can not survive in a unipolar environment
As a spiritual being in a physical vessel you must transition within

Your heart chakra will become the central core pole of your expression
And your all your outershell peripherals becoming the pole of your creativity
You have been bipolar for aons of millenia where
Your sex chakra was the core pole of all your expression
And your crown chakra was the pole of your creativity

- please see : Heart Spiral Meditation

The Gaia universe requires a rewiring of your physical circuitry
In order for it to operate in a unipolar universe
At higher frequencies of electric potential
Known as triple light harmonics 432

To be continued in part# 4

Forever we walk upon Gaia's shores
you are the seeds of an awakened humanity
in the fullness and ripeness of your hearts you are given to the wind
and should a seed find itself on pure and sacred ground
it shall blossom into a new earth ...

Although the winds may blow away the grains of sand
the ocean and shores will always remain
there is still much to say
and though much has already been said
it was as if nothing was said

If nothing said was truth
then truth will reveal itself in a clearer voice and pureness of heart
from within the silence we shall return
and the veils that have clouded your hearts and souls
shall be lifted by the hands of ultraviolet light

And you will reawaken the purpose that is in all things
and darkness and light shall be as one
forever-blue horizons reach way back into your future
and as the sun rises you remember your forgotten dreams
only to find yourself standing in deep water
your hearts beating upon Gaia's shores

Earth is beautiful blue, until another time, another place
Where silence and peace shall speak as loud as war once did
And Mother Earth ascends to what she was once before, GAIA.
In the flash of a moment ... All that is Done will be Undone
